PROFESSIONAL SUMMARY

Full-stack Developer with 2 years of experience in the IT industry, specializing in front-end and MERN stack technologies. Demonstrated success in delivering creative and robust solutions. Dedicated to enhancing team capabilities and driving project success through innovative skills. Poised to bring immediate value to your development initiatives.

WORK EXPERIENCE

Critical Mention an Onclusive Company April 2022 - Feb 2024

Full-Stack Web Development

As a Full Stack Developer, significant contributions were made to developing and maintaining web applications using Vue.js on the Front-end and Python Flask on the Back-end.

Tech Stack: Vue Js | JavaScript | Python | Flask | solr | AWS | MYSQL | Node js

Areas of responsibility:

- Seamless user experiences: Created dynamic, responsive UIs with Vue.js, enhancing user engagement.
- Modular, reusable code: Utilized Vue.js components for maintainable and efficient development.
- Robust APIs: Implemented RESTful APIs using Flask for smooth communication between front-end and back-end.
- Quality assurance: Wrote unit tests and collaborated with QA teams to deliver bug-free software.
- Teamwork and planning: Collaborated effectively with diverse teams and participated in disaster recovery planning, ensuring service continuity.
- Cloud awareness: Possess a foundational understanding of AWS Cloud
- Conducted disaster recovery drills, migrating from US West to East, ensuring service continuity and minimizing downtime.

MASAI PROJECTS

Patreon Clone 🔄

Patreon is a membership platform that empowers artists and creators to get paid directly from patrons, enabling fan engagement through monthly memberships

Tech Stack: React Js | CSS | Material UI | DOM | MongoDB

Areas of responsibility:

- Users can customize their Patreon pages with options for currency, color, profile photos, and cover photos, and can post using a text editor.
- The collaborative project, executed by a team of 4 in 6 days, emphasized attractive UX through well-organized routes.

Weather App 🔄

Explore a seamless weather-tracking journey with my Vue.js app. Enjoy personalized updates on temperature, humidity, and wind speed, including hourly and 7-day forecasts.

Tech Stack: Vue Js | CSS | Vuetify | DOM

Areas of responsibility:

- Customized CSS styles for an appealing weather app interface.
- Integrated weather API functionality with search and geolocation features for dynamic updates.
